

# Domestic Group Companies SITE REPORT 2009

## NGK Kilntech Corporation

**Address** 43, Nagata, Narumi-cho, Midori-ku, Nagoya 458-0801, Japan

**Major Production Items** Manufacture and sale of various kinds of incinerators and far-infrared equipment

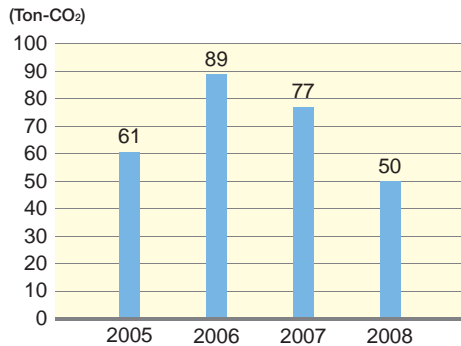

### Brief Explanation of the Company

The company acquired certification for its ECO-Stage II environmental management system in August 2005 and updated its certification in August 2008. Guided by its basic corporate philosophy—'Providing products that contribute to a better social environment and create new value'—the company is working to develop and manufacture products to help realize a better social environment, based on efforts to maintain and improve its environmental management system.

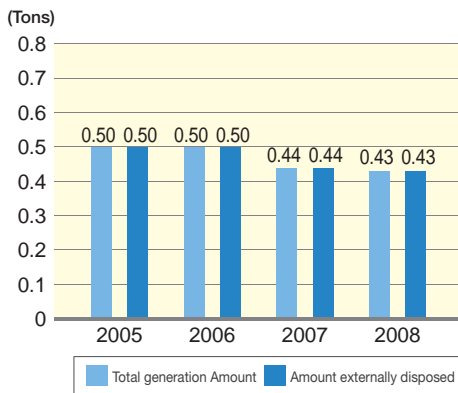

### Activities in FY2008

1. Promotion of Energy Saving
  - The company introduced a new test energy reduction furnace and launched related PR outreach to its customers.
  - The company reduced CO<sub>2</sub> emissions by updating air conditioner facilities.
2. Reduction of By-product Generation
  - The company reviewed packaging methods and materials and worked to reduce the amount of packaging materials used.
  - The company implemented thorough waste separation measures to increase recycling rates and to control waste generation.

Shift of Generation of Energy-Oriented CO<sub>2</sub>
